

Modern Application Development 2

Author

Name: Tripurari Kumar

Roll No.: 23F2003868

Email: 23f2003868@ds.study.iitm.ac.in

I am Tripurari Kumar. I am currently pursuing a BS in Data Science from IIT Madras and is at Diploma level. I have a strong interest in Development and Data Science. I am passionate about building scalable and efficient application and explores new technologies to enhance my skill

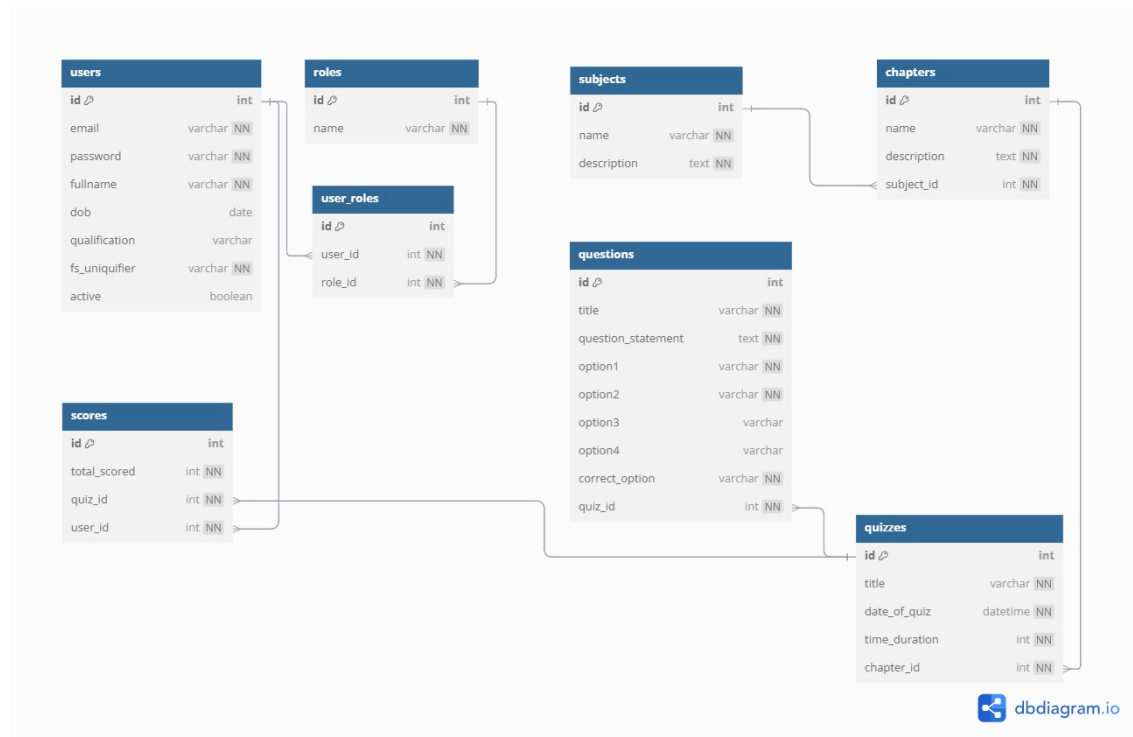

Project Description

In my Modern Application Development 2 project, I am focusing on full stack development. I prepared a Quiz Master application that role-based access application design to manage subject, chapter, quizzes, question and track user scores.

Technologies Used

- **Backend**
 - ◆ Flask: Used for building the backend of application
 - ◆ Flask Restful: used for creating RESTful APIs
- **Frontend**
 - ◆ Vue.js: User for building UI
 - ◆ Jinja2
 - ◆ Bootstrap: Used for Styling
 - ◆ Chart.js: Used for data visualization
- **Database**
 - ◆ SQLite: Used as the database
- **Caching & Background Jobs**
 - ◆ Redis: Used for caching
 - ◆ Redis & Celery: Used for batch job

Database Schema

Routes

- /login
- /logout
- /register
- /create-csv
- /get-csv/<id>
- /user-csv
- /get-user-csv/<id>

API

- /api/subjects
- /api/subjects/<int:id>
- /api/subjects/<int:subject_id>/chapters
- /api/chapters/<int:id>
- /api/chapters/<int:chapter_id>/quizzes
- /api/quizzes/<int:id>
- /api/quizzes
- /api/quizzes/<int:id>/questions

- /api/questions/<int:id>
- /api/ submit_quiz
- /api/user/<int:user_id>/score
- /api/quiz_summary
